

Arcade Laser Tag Hire Instructions.

1. **Do not turn the tagger off while in start-up phase**, please wait for start-up noise to happen before turning off the tagger.
2. **Game mode: 5 lives**, or 12 minutes (whichever ends first). Gun colours are not important for this game, it is a free for all format.
3. **Scopes:** to turn the scopes on and off, twist the big dial on top, do not twist the small dials.
 - handle the taggers in a way that you're not going to knock the scope.
4. **Aim** for the bobbles on the tagger, PLAY FAIR and do not cover you bobbles with your hand.
5. **Distance** allows 1 meter between players to help avoid collisions and potentially cause harm to the player or equipment.

Operation.

1. **Trigger** allows the player to shoot. Taggers are set to fully automatic.
2. **Red button** is reloaded, it takes 2 seconds to reload.
3. **Black button**, while in game it will show stats on how you have performed.
4. **Key switch** turns the tagger on and off.
 - Do not press any buttons including trigger while turning on the tagger. you may enter a configuration mode or even factory reset the tagger. If this happens, please call one of our staff Tom 0277533997 or Nick 021851110 and will talk you through how to get back to game mode.
5. **Do not turn the tagger off while it is in its start-up phase.**

Number of guns taken _____

If you have any questions or concerns during your hire, please feel free to call Nick Fowler 021851110.

Have fun and play safely.
